EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Johnson on 8/12/2004.

The application has been amended as follows:

Claims 7-13 have been canceled.

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record Cosyns et al (6,333,442) does not disclose or render obvious a process including a step of separation of mercaptan and dienes and using a starting feed also containing dienes and mercaptans before the feed is further processed. In the final Office action, to reject the claimed process the examiner must modify the Cosyns process by using such a feed from the patent to Umemura et al (3,895,049). However, such a combination does also not suggest a step of removal of these two unwanted components from the feed. In other words, there is no motivation taught by either of the references to remove the mercaptans (sulfur compounds) and dienes. In contrast, on column 3, lines 36-58, Cosyns discloses that the catalyst of isomerization needs to be sulfurized *in situ* or *ex situ*. Therefore, one having ordinary skill in the art who studies the patent to Cosyns carefully would recognize that mercaptan (a sulfur compound) does not harm, but

benefit the catalyst. Therefore, the removal of mercaptan before the isomerization step is not obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan D. Dang whose telephone number is 571-272-1445. The examiner can normally be reached on Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
